

TECHNICAL DATA SHEET

SECUPRO OPTISAFE NO. 100145

Safety technology

Fully automatic blade retraction – a very high degree of safety

The fully automatic blade retraction of the SECUPRO OPTISAFE guarantees a very high degree of safety from cut injuries. The blade withdraws into the handle the moment it leaves the material being cut. Even when the slider is still being held forward.

SAFETY KNIFE WITH SMALL CUTTING DEPTH AND FULLY AUTOMATIC BLADE RETRACTION.

Order No. 100145.02

In many ways the ideal solution.

Optimize your workplace with the SECUPRO OPTISAFE. With its 4-edged blade and metal reinforced chin and you can be sure of durability and efficiency. This cutter, with its double-sided slider, is suitable for both left and right-handed users, while its general shape and size promotes ergonomic handling for all. And its relatively small cutting depth? Might not be suitable for cutting all types of materials, but is particularly capable of protecting your standard packaged goods.

4-times usable blade

Why do you benefit more from your blade? Because it has four sharp edges. By simply turning it, you quadruple the usage time - and at the same time use less force when cutting.

Short blade

It's how short it is that matters. At a maximum cutting depth of only 10 mm, the risk of damaging your goods when opening the packaging is especially low.

Double-sided slider

With the right hand? With the left hand? This question does not arise. Because we have fitted the SECUPRO OPTISAFE with a slider that is accessible from both sides. Choose for yourself!

Tool-less blade change

Two hands are enough to insert the new blade. And these short instructions: You press the blade change button and open up the handle. The blade carrier is pushed to the front and you can change the blade. It's that easy.

Metal guard

SECUPRO OPTISAFE is not afraid of a little friction. A metal abrasion protection shield, found on the underside of the knife head, works to prevent any general wear and tear as you cut your path through the day.

PRODUCT FEATURES

Technical features

 Very high safety	 Tool-less blade change	 Abrasion resistant	 Ergonomic
 4-times usable blade	 Extended blade length	 Cutting depth	 For right and left hander
 Lanyard hole	 Printable for promotional purposes		

Main cutting materials

SECURITY ADVICE

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user-instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. General application instructions: Please use the product carefully for cutting work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the knives into account in this regard.

2. Special application instructions to avoid the danger of injuries: Only use knives that are in perfect condition and have sharp, clean and undamaged blades. employ the utmost care when handling the knives.

CAUTION: The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade! To reduce the danger of injuries, hold the hand that is being used to restrain and stabilise the cutting base in such a manner that the restraining hand or even other body parts are not endangered in the event that the knife slips.

3. Replacement of spare parts: Replace any blades that become dull at the right time! Use only the replacement blades

available at MARTOR for this purpose. Dispose of old blades in a proper fashion. They should not be placed in a waste paper bin, as this poses a considerable danger of injuries. Never perform any repairs yourself. If the knife displays signs of aging or other wear, e.g. function problems when changing the blade or in the handling of the blade pushers, then it must be rejected and replaced with a new one. Any modifications or manipulations to the product are prohibited, as they impair the product safety. **CAUTION:** There is an extremely high danger of injuries here!

4. Non-use of the knife: Always secure the blade in such a way that injuries due to cuts are excluded. Store the knife in a secure place.

5. Care instructions: Always keep the knife clean and do not expose it to unnecessary humidity to safeguard a long service life.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!

ACCESSORIES

BELT HOLSTER S WITH CLIP NO. 9920

What do you do with your cutting tools when you are not actually using them? The MARTOR BELT HOLSTER S is a robust holder that allows you to carry all compact MARTOR cutters as well as our safety scissors at all times. In addition, the compartments are designed to allow you to load different tools: for example you can also carry a pen or a pack of blades. The MARTOR BELT HOLSTER is the ideal place to stow your tools safely when moving from A to B - and have them at hand, as soon as they are required.

HOLSTER LARGE NO. 9843

Your cutting tool will feel comfortable in this 'no-fuss' plastic HOLSTER. Attach it to your belt, or with a clip to your jeans pocket. This large black HOLSTER is suitable for storing the SECUPRO cutters MAXISAFE, OPTISAFE, PROSAFE and LEWIS, as well as the SECUNORM GENIAL.

USED BLADE CONTAINER NO. 9810

You can fill the USED BLADE CONTAINER with the content of your SAFEBOX. Or directly with your used blades. When the box is full, turn the lid until it shuts. Now the box cannot be reopened. The next step is to safely and completely dispose of the filled USED BLADE CONTAINER.

WALL MOUNT BRACKET USED BLADE CONTAINER NO. 9845

Include it in your order now! With this mounting bracket you can fix your USED BLADE CONTAINER to a central location. Use the clamp and screws and nuts supplied with the product to attach it to either a pipe or a rod.

SAFEBOX NO. 108000

The SAFEBOX is large enough to store a large number of used blades safely. And at the same time, it is compact enough to carry with you. The two slits are not only used for filling, but also to „shorten“ your snap-off blades. When your SAFEBOX is full, empty it into your USED BLADE CONTAINER.
